# Anlage 8 (zum Datenbericht Mindestanforderungen gemäß § 23 StandAG und geowissenschaftlichen Abwägungskriterien gemäß § 24 StandAG)

## Schichtenverzeichnis Bohrung Klosterseele Z6

Stand 21.09.2020

Hinweis:

Vorliegender Datenbericht zeigt alle entscheidungserheblichen Daten, die mit Stand 07.09.2020 gemäß den Regelungen und Verfahren nach dem Geologiedatengesetz veröffentlicht werden können. Siehe auch BGE 2020I Teil 3 von 4.

## **Entscheidungserhebliche Daten und Tatsachen für die geowissenschaftlichen Abwägungskriterien**

Die Veröffentlichung von entscheidungserheblichen Tatsachen und Erwägungen, hier geologische Daten, erfolgt nach dem Gesetz zur staatlichen geologischen Landesaufnahme sowie zur Übermittlung, Sicherung und öffentlichen Bereitstellung geologischer Daten und zur Zurverfügungstellung geologischer Daten zur Erfüllung öffentlicher Aufgaben (Geologiedatengesetz – GeolDG).

Das GeolDG löst das Lagerstättengesetz ab und nach § 1 GeolDG (GeolDG) regelt es die staatliche geologische Landesaufnahme, die Übermittlung, die dauerhafte Sicherung und die öffentliche Bereitstellung geologischer Daten sowie die Zurverfügungstellung geologischer Daten zur Erfüllung öffentlicher Aufgaben, um den nachhaltigen Umgang mit dem geologischen Untergrund gewährleisten und Geogefahren erkennen und bewerten zu können. Geologische Daten werden insbesondere auch für das Standortauswahlverfahren nach dem Standortauswahlgesetz (StandAG) benötigt.

Das GeolDG trat mit dem 30.06.2020 in Kraft, so dass seitens der BGE, den Landesministerien und Landesbehörden ab diesem Zeitpunkt mit den Verfahren nach dem GeolDG zur Kategorisierung und öffentlichen Bereitstellung geologischer Daten begonnen werden konnte. Die erforderlichen Verfahren waren aufgrund ihres Umfangs nicht in dem bis zur Veröffentlichung bestehenden Zeitraum umzusetzen. Insofern werden nach dem 28.09.2020 weitere geologische Daten veröffentlicht werden. Die Veröffentlichung erfolgt mit Hilfe einer Revision des vorliegenden Datenberichtes. Dabei werden die bisher im vorliegenden Bericht weiß abgedeckten Bereiche nicht weiter abgedeckt, sondern die „darunter liegenden“ Daten sichtbar gemacht.

Mit diesen Anlagen sind der untersetzenden Unterlage (BGE 2020I) die entscheidungserheblichen Daten zu den Mindestanforderungen und geowissenschaftlichen Abwägungskriterien angefügt. Die darin angegebenen Koordinaten beziehen sich dabei immer auf die den identifizierten Gebieten und Teilgebieten zugrundeliegenden Daten und beschreiben damit nicht zwingend das Teilgebiet selbst.

the 1990s, the number of people in the UK who are aged 65 and over has increased from 10.5 million to 13.5 million, and the number of people aged 75 and over has increased from 4.5 million to 6.5 million (Office for National Statistics 2000).

There is a growing awareness of the need to address the needs of older people, and the need to ensure that the health care system is able to meet the needs of older people. The Department of Health (2000) has published a strategy for older people, which sets out the government's commitment to older people and the need to ensure that the health care system is able to meet the needs of older people.

The strategy for older people (Department of Health 2000) sets out the government's commitment to older people and the need to ensure that the health care system is able to meet the needs of older people. The strategy is based on the following principles:

- Older people should be able to live independently and actively in their own homes.
- Older people should be able to access the services they need to live independently and actively in their own homes.
- Older people should be able to access the services they need to live independently and actively in their own homes.

The strategy for older people (Department of Health 2000) sets out the government's commitment to older people and the need to ensure that the health care system is able to meet the needs of older people. The strategy is based on the following principles:

- Older people should be able to access the services they need to live independently and actively in their own homes.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry, no matter how small, should be recorded to ensure the integrity of the financial data. This includes not only sales and purchases but also expenses and income. The text explains that proper record-keeping is essential for identifying trends, managing cash flow, and preparing for tax obligations. It also notes that consistent record-keeping can help in resolving any disputes or discrepancies that may arise over time.

The second part of the document provides a detailed overview of the accounting cycle. It outlines the ten steps involved in the process, from identifying the accounting entity to preparing financial statements. Each step is explained in detail, with examples provided to illustrate the concepts. The text highlights the importance of each step and how they interrelate to form a complete and accurate picture of the organization's financial performance. It also discusses common pitfalls and how to avoid them to ensure the accuracy of the financial records.

The third part of the document focuses on the classification of accounts. It explains the different types of accounts used in accounting, such as assets, liabilities, equity, revenue, and expense accounts. It provides a clear understanding of how these accounts are classified and how they are used to record transactions. The text also discusses the importance of using the correct account codes and how this affects the accuracy of the financial statements. It provides examples of how transactions are recorded in the accounting system and how they are classified into the appropriate accounts.

The fourth part of the document discusses the importance of reconciling accounts. It explains that reconciliation is a critical step in the accounting process that helps to ensure the accuracy of the financial records. It involves comparing the organization's internal records with external statements, such as bank statements, to identify any discrepancies. The text provides a step-by-step guide to the reconciliation process, including how to identify and investigate any differences. It also discusses the importance of documenting the reconciliation process and how it can be used to identify and prevent future errors.

The fifth and final part of the document discusses the preparation of financial statements. It explains that financial statements are a key tool for management and external stakeholders to understand the organization's financial performance. It provides a detailed overview of the four main financial statements: the balance sheet, the income statement, the cash flow statement, and the statement of equity. The text explains how these statements are prepared and how they are related to each other. It also discusses the importance of providing accurate and timely financial statements and how they can be used to make informed business decisions.

the 1990s, the number of people in the world who are under 15 years of age is expected to increase from 1.1 billion to 1.5 billion (United Nations 1998).

There are a number of reasons why the number of children in the world is increasing. One of the main reasons is that the number of children who are surviving to adulthood is increasing. This is due to a number of factors, including improved medical care, better nutrition, and a decrease in child mortality rates.

Another reason why the number of children in the world is increasing is that the number of children who are being born is increasing. This is due to a number of factors, including a decrease in the age at which women are having children, and an increase in the number of children who are being born to women who are already having children.

There are a number of challenges that are associated with the increasing number of children in the world. One of the main challenges is that there are not enough resources to care for all of the children. This is particularly true in developing countries, where there is a lack of access to education, healthcare, and other basic services.

Another challenge is that there are not enough jobs for all of the children. This is particularly true in developing countries, where there is a high unemployment rate. This means that many children are forced to work to support their families, which can have a negative impact on their health and education.

There are a number of ways that we can address these challenges. One way is to improve access to education, healthcare, and other basic services. Another way is to create more jobs for children. This can be done by supporting small businesses and providing training and education for children.

It is important that we take action to address these challenges. If we do not, the number of children in the world will continue to increase, and the lives of many children will be negatively impacted. We need to work together to find solutions that will improve the lives of all children.

There are a number of organizations that are working to address these challenges. One of the most well-known is UNICEF. UNICEF is a United Nations agency that is dedicated to the well-being of children. It provides a wide range of services, including education, healthcare, and nutrition.

Another organization that is working to address these challenges is the World Bank. The World Bank is an international financial institution that provides loans and grants to governments and other organizations. It has a number of programs that are specifically designed to help children, such as the World Bank's Child Development Grant.

There are also a number of private organizations that are working to address these challenges. One of the most well-known is the Bill & Melinda Gates Foundation. The foundation has a number of programs that are specifically designed to help children, such as the foundation's Global Health Program.

It is important that we continue to support these organizations and work together to find solutions that will improve the lives of all children. We need to make sure that every child has the opportunity to live a healthy and happy life.

There are a number of things that we can do to help children. We can provide them with access to education, healthcare, and other basic services. We can create more jobs for children. We can support small businesses and provide training and education for children. We can do all of these things and more to help children.

We need to make sure that every child has the opportunity to live a healthy and happy life. We need to work together to find solutions that will improve the lives of all children. We need to make sure that every child has the opportunity to live a healthy and happy life.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every sale, purchase, and payment must be properly documented to ensure the integrity of the financial statements. This includes recording the date, amount, and purpose of each transaction, as well as the names of the parties involved. The document also highlights the need for regular reconciliation of bank statements and the company's records to identify any discrepancies early on.

In addition, the document provides a detailed overview of the company's revenue streams and cost structures. It explains how each revenue source is tracked and how various expenses are allocated to different departments or projects. This information is crucial for understanding the company's overall financial performance and for identifying areas where costs can be reduced or revenues can be increased.

The second part of the document focuses on the company's financial ratios and trends. It presents a series of graphs and tables that show the company's performance over the past several years. Key ratios such as the current ratio, debt-to-equity ratio, and return on equity are analyzed to provide a comprehensive view of the company's financial health. The document also discusses the company's liquidity position and its ability to meet its short-term obligations.

Finally, the document concludes with a series of recommendations for future financial management. It suggests that the company should continue to invest in technology and automation to improve the accuracy and efficiency of its financial reporting. It also recommends that the company should regularly review its financial policies and procedures to ensure they remain up-to-date and effective. The document ends with a statement of confidence in the company's future prospects and a commitment to transparency and accountability.

of the study, the authors are confident that the results are representative of the general population of young people in the UK.

There are a number of strengths of this study. It was the first to examine the prevalence of self-harm in a representative sample of young people in the UK. It also included a measure of self-harm severity, which has not been included in other studies.

There are also a number of limitations to this study. It was a cross-sectional study and therefore cannot establish causality.

The study was limited to young people in the UK. It would be interesting to see if the results were similar in other countries.

The study was limited to young people who were in contact with their general practitioner. It would be interesting to see if the results were similar in other settings.

The study was limited to young people who were aged 16-24. It would be interesting to see if the results were similar in other age groups.

The study was limited to young people who were in contact with their general practitioner. It would be interesting to see if the results were similar in other settings.

The first part of the document discusses the importance of maintaining accurate records in a business setting. It highlights how proper record-keeping can help in decision-making, legal compliance, and financial management. The text emphasizes that records should be organized, up-to-date, and easily accessible.

Next, the document addresses the challenges of data management in the digital age. It notes that while digital storage offers convenience, it also introduces risks such as data loss, security breaches, and information overload. Solutions like cloud storage, encryption, and regular backups are suggested to mitigate these risks.

The third section focuses on the role of technology in streamlining business processes. It describes how automation and software tools can reduce manual errors, save time, and improve overall efficiency. Examples of such technologies include accounting software, project management tools, and customer relationship management systems.

Finally, the document concludes by stressing the need for continuous learning and adaptation. As technology and market conditions evolve, businesses must stay informed and be willing to adopt new practices to remain competitive. Regular training and updates are essential for long-term success.
